One to try - solution

Taken from a yacht's log.

Take variation as 6W and use the Deviation Table in the Almanac

Time	Log	Со	Wind	L'way	Narrative					
1500	27.7	265C	NE3	-	South Head Lt bears 342M					
1530	31.2	265C	NE3/4	-	South Head Lt now bears 068M					
(Tidal s	stream 1	500 -15	30 is 125	ST / 1.2 k	ots)					

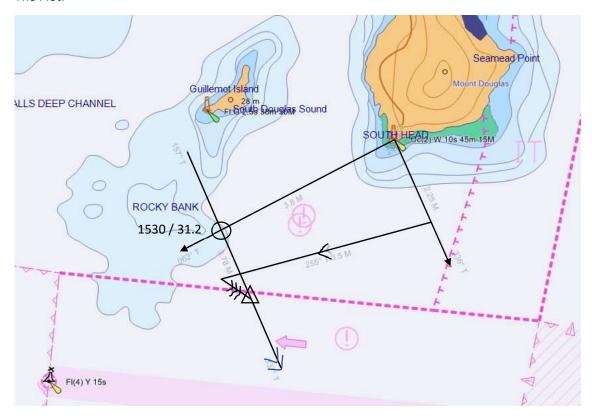

Find the yacht's position at 1530.

Solution:

Conversions:

Bearing	C adburys	D airy	<mark>M</mark> ilk	<mark>V</mark> ery	Tasty ¹
Course	265C	4W	261M	6W	255T
1 st Bearing			342M	6W	336T
2 nd Bearing			068M	6W	062T

The Plot:

1530 Position - 46° 05.2′N / 005° 53.6′W

 $^{^{\}rm 1}\,{\rm I}$ use this pneumonic to remember the order for this.
